

PAION is a publicly listed specialty pharmaceutical company developing and aiming to commercialize innovative drugs to be used in out-patient and hospital-based sedation, anesthesia and critical care services. PAION's lead compound is remimazolam, an intravenous, ultra-short-acting and controllable benzodiazepine sedative/anesthetic drug candidate which is in the final stage of clinical development for use in procedural sedation in the U.S. Currently, PAION is mainly focusing its business and financial resources on successfully completing its development program in procedural sedation in the U.S. Outside the U.S., PAION has so far focused on the development of remimazolam in the indication general anesthesia. A full clinical development program for general anesthesia was completed in Japan. In the EU, PAION is currently planning to continue the clinical development program. Development of remimazolam in the indication intensive care unit (ICU) sedation is also part of the longer term life-cycle plan for remimazolam.

PAION is headquartered in Aachen (Germany) with a further site in Cambridge (United Kingdom).

PAION's vision is to become an acknowledged "PAIONeer" in sedation and anesthesia.

For our team in Cambridge / UK or Aachen / Germany we are currently searching for a

(Senior) Medical Information Manager (m/w)

The (Senior) Medical Information Manager is responsible for continuously advancing knowledge about PAION's compounds within the medical / scientific community. Based on a solid knowledge about PAION's therapeutic area, this professional is versed in various communication platforms, such as peer-reviewed publications, Advisory Boards, individual communication to KOLs and investigators. The (Senior) Medical Information Manager is expected to provide in-depth scientific, clinical and educational support to the medical community, and when needed internal groups such as the clinical teams as well to partners and licensees.

The (Senior) Medical Information Manager will also play a major role in preparing and executing market access strategies.

Your tasks & responsibilities:

- Regularly screens scientific journals for articles and information pertinent to PAION's products, identifies respective literature, summarizes and communicates the content within the company.
- Builds and maintains a library of all published information on PAION's products.
- Supports PAION departments in literature search for specific questions as well as for regular reports, e.g., DSUR.
- Builds and maintains an overview about potential competitors to PAION's products.
- Initiates and writes scientific publications, congress abstracts and poster presentations or supports external authors in these activities.
- Ensures that medical information requests are satisfactorily addressed in a timely manner.
- Together with the Clinical Development Team provides medical / scientific training material, incl. appropriate documentation and storage.
- Supports the Clinical Development Team in organizing Advisory Boards by generating / reviewing presentations and other scientific material. Represents PAION as expert contact in Ad-Boards, during congresses, etc.
- Supports PAION's licensees with all requested material and advice. Maintains PAION's sharepoints up-to-date with regards to clinical information.
- Reviews unsolicited requests for research proposals that would provide new information for a PAION compound or the optimal utilization of the company's products. Discusses personal assessment with Head of Clinical Development.

Your profile:

- Master degree in Life Sciences, preferably MD with experience in PAION's therapeutic area "anesthesia"
- Minimum 7-10 years of healthcare related experience (clinical practice, research, academia) and a thorough understanding of the pharmaceutical industry.
- Established and successful track record as a Medical Information Manager or equivalent

- Successful track record as team member during market access of a compound
- Demonstrated expertise in drug information communication, incl. peer-reviewed publications
- Excellent interpersonal, oral and written communication skills
- Knowledge of FDA/EMA regulation
- Excellent English language skills
- Strong relationship-building skills, particularly with the medical / academic community
- Team-oriented with the ability work effectively with others
- Willingness to travel internationally, incl. weekends and frequently between the two PAION locations

Do you want to work in an international and dynamic environment and would like to play an active role? We look forward to receiving your application preferably by email, to s.hagens@paion.com
